The Modern Way---Combining log offices and dining-rooms with tent sleeping apartments

THE Shaw & Powell Camping Co. for the last twenty years have conducted, with the approval and sanction of the United States government, a tourist business in the Yellowstone National Park.

The year 1916 finds us splendidly equipped to handle our increasing volume of business. Satisfaction with mediocre results breeds decay, but a constant struggle to attain perfection is ample assurance of superior service.

Season for touring Yellowstone National Park will open June 15th and close September 15th

Note the interior page—actual photographs of the accommodations of one of Shaw & Powell's modern, permanent camps and surroundings.

care of the Shaw & Powell Camping Co.*

A careful inspection of views on inner
page will give you an idea of our im-
proved facilities for handling tourists.

Grotto Geyser

The Shaw & Powell Camping Co.
are the active agents of progress in
Yellowstone Park Camp life, and are
keeping well abreast of those engaged
in the transportation business through-
out the country.

We have erected attractive log
buildings, for our kitchens, dining-
rooms, offices and recreation pavilions.

YELLOWSTONE NATIONAL PARK

All roads lead to the Shaw & Powell Way. Do not purchase your park transportation until you have investigated the merits of the Shaw & Powell Permanent Camping Co., with its modern house tents and sanitary log kitchens, dining-rooms and offices.

Our meals are all prepared in sanitary log buildings. Our offices, dining-rooms and recreation pavilions are attractive and perfectly comfortable, while the rustic air maintained by them, adds materially to the scenic feast in store for those who tour Wonderland.

Our sleeping apartments are all model house-tents, with tight board floors, four-foot board sides and wooden panel doors protecting the inmates from draughts and dampness. Each apartment is appropriately furnished, giving our tourists every necessary comfort of camp life. Space forbids a thorough exposition of the

Tickets may be purchased at either of the Park entrances, or from a Shaw & Powell agency.

merits of the Shaw & Powell way; suffice to say that our transportation is unsurpassed, for we use the easy riding, roomy, Concord coaches and mountain spring surreys, drawn by efficient mountain horses, driven by experienced mountain drivers, who are both capable and obliging.

Each camp maintains its own dairy, insuring a generous supply of fresh milk, cream and butter. We also run our own truck farm, which furnishes the very best of fresh vegetables. These facilities make it possible for Shaw & Powell to serve meals that for wholesomeness and variety are surprising to our most fastidious patrons.

Our regular itinerary includes all side trips, without extra charge. This feature alone makes it important to select the Shaw & Powell Way.
